

DLL-160 Strip Packing Machine (Soft Alu-Alu packing Machine)

Applicants:

DLL-160 is a high speed strip packing Machine and is used for pack capsules, Tablets or similar products in to double soft Aluminium foil .

FEATURES:

1. Automatic feeding, sealing, slitting and cutting are done simultaneously. Therefore, its efficiency is high, meaning production cost is decreased due to reduction of labor cost.
2. The exterior of the machine is made of stainless steel which makes it easy to be cleaned and meet G.M.P.
3. Compact and constructed simply, the machine can and its be maintained easily, operates with low noise downtime is low.
4. When packing operation is completed, the product shall be absolutely sealed and beautifully looked at. This certainly promote the quality of the product.
5. It is easy to operate and anyone can learn the operation instantly.
6. The mold/die can be easily replaced within 40 minutes.

Main Technical data:

Production Capacity:	3-3.6ten thousands per hour
Blanking Frequency :	20-50times/min
Compressor Air:	0.5MPa≥0.1m3/min(self-prepared)
Main Motor Power:	0.55KW
Dimensions:	1200*850*1700mm
Weight:	500kg
