

S--YGF Liquid filling and capping machine

Uses: This machine is one of the traditional filling stoppering and capping machine ,advanced design,reasonable structure,can automatically complete filling, stoppering and capping process, is suitable for the syrup,tincture ,wine a variety of materials ,such as ,no bottle no filling ,for bottle no stoppering(plug),and other functions, Can be used stand-alone,and also can be used for filling line. This machine completely accords with the new GMP requirements.

Brief Introduction:

- 1.The machine is applied filling and stoppering and capping glass bottle,plastic bottle from 20-500ml
- 2.Adopted linear type filling ,mechanic way to stoppering,cap putting and capping/screw-capping
- 3.The machine is easy operate and small footprint, easy maintenance and can be connect to other machine into compact producing line.
- 4.It is used for pharmaceutical ,food and daily chemical industry.

Characteristic:

- All electric components adopt Siemens or other famous brand
- High Precision CAM indexer control,positioning precision
- It has intuitive and convenient operation,no bottle no filling,measuring accurate
- Three knife centrifugal sealing, to ensure the sealing strong and beautiful
- Fully in accordance with the GMP standard production

Main Technical Parameters

Applied Bottle	20-500ml
Productive Capacity	20-50pcs/min
Filling Tolerance	0-2%
Qualified cap putting	≥99%
Qualified capping	≥99%
Power supply	380V,50HZ
Power	2KW
Net Weight	750KG
Dimension	2500(L)×1300(W)×1700(H)mm
