

S--XGSZ liquid filling and capping production line

Bottle Unscrambler → Bottle washing machine → liquid filling → Capping Machine → labeling machine

Uses:

This production filling line which includes bottle turntable, ultrasonic washing machine, filling plugging and capping machine, can make bottle clean and dry, blow as well with filling process etc, can connect with labeling machine

Characteristic:

Outer material is 304 stainless steel and the material of filling parts is SS316L stainless steel, it complies with GMP regulation and can be suitable for several bottle specifications, stable running, low noise, precise filling, low bottle breakage ratio, high qualified product ratio, low energy consumption. The whole line can be controlled by a single machine control or interlock control.

Main Technical Parameters

Applied Bottle	20-500ml
Productive Capacity	20-50pcs/min
Filling Tolerance	0-2%
Qualified cap putting	≥99%
Qualified capping	≥99%
Power supply	380V, 50HZ
Power	3KW
Net Weight	750KG
Dimension	6000(L)×1300(W)×1800(H)mm
